

Øystein Farsund
Senior Scientist
Norwegian Defence Research Establishment (FFI)

Øystein Farsund is a senior scientist at FFI (Norwegian Defence Research Establishment) in the electro optics group. After receiving an MSc degree in physics from the Norwegian University of Science and Technology in 1994, he worked for Norsk Elektro Optikk within optics, imaging and hyperpectral sensing activities before joining FFI in 1999. At FFI he has been involved in several projects within fiber optics and fiber optic sensors, and he is now working on projects on standoff biological agent detection, hyperspectral imaging, and development of nonlinear optical devices.
